Product data sheet

# Model 1770 from SIKU®

Article number: 19550091 - PU 1

## For discerning collectors

This model of the Weidemann 1770 with a driver's canopy is designed for collectors who value meticulous detail, even on a small scale. The design closely follows the original and looks just as good in a display cabinet as it does on a desk or on a shelf. A model for adults and children alike, which Weidemann has faithfully reproduced even in miniature.
