A Weidemann Conquers the World- A project by the Humboldtschule Korbach.
As part of a joint student project involving the Weidemann partner class at the Humboldt-Schule Korbach, a creative journey exploring Weidemann's global presence was created under the theme A Weidemann Conquers the World —fueled by the children's imagination and ideas.

To start, the students drew a country by lot. They then designed their chosen country in their own unique way, creatively illustrating typical landmarks, landscapes, or other distinctive features on paper. At the same time, they highlighted the countries where Weidemann Hoftracs, wheel loaders, telescopic wheel loaders, and telehandlers are in use. A special requirement was to incorporate a Weidemann machine into every picture.

Ursprungsland	Deutschland
Zolltarifnummer	49100000
